

RAPID DEPLOYMENT MEDICAL TRAINING

Empowering life saving excellence

KEY FEATURES:

Realistic Bleeding Simulation: Manual hand pump simulates arterial blood flow through wound sites

Durable & Portable: Built with rugged synthetic materials that withstand repeated use, while remaining lightweight and easy to transport and clean

Affordable & Accessible: Designed to deliver high-impact training without the high cost, making it ideal for organizations of all sizes

Visual Confirmation: Bleeding slows or stops only with correct tourniquet use or proper packing

Customizable Training: Includes 3 interchangeable blocks (2 bullet wounds, 1 stab wound), and has adjustable bleeding pressure

WHAT'S INCLUDED:

- 1 Tourniquet & Wound Packing Training Arm
- 1 Hand Pump for Blood Simulation
- 1 User Guide
- 1 Table Mount
- 3 Interchangeable Wound Blocks

SPECIFICATIONS:

Dimensions: 30" L x 6" W x 6" D
Weight: 8 lb 8 oz
Wound Block Size: 1.75" x 1.75" x 1.65"

GOING BEYOND FILLING THE GAPS

Existing training aids overlook the unpredictability of real injuries, leaving trainees unprepared. The RDMT solves this with the first all-in-one, programmable tourniquet and wound-packing trainer.

Guaranteed to deliver realism, and affordability.
